

Q.DPS:EN.2-2: Please describe the cash flows associated with Vermont Yankee power purchase agreements and describe any differences in cash flows if and when power purchase agreements are assigned by Vermont Yankee to the parent. (See Petition paragraph 20 at page 6).

A.DPS:EN.2-2: Assignment of the current power-purchase agreement ("PPA") to the parent is not required. The current PPA between Vermont Yankee Nuclear Power Corporation and Entergy Nuclear Vermont Yankee, LLC ("EVY"), has been assigned to Entergy Nuclear Power Marketing, LLC ("ENPM"). See A.DPS:EN.1-11 for a listing of the power-purchase agreements that relate to the VY Station.

ENPM will continue to be the counterparty to the existing contracts when ENPM becomes part of NewCo. No material changes to the existing PPA or to the cash flows are anticipated.

Person Responsible for Response: Marc Potkin  
Title: Vice President of Power Marketing  
Date: May 12, 2008
