###

**Internet for All**

The Bipartisan Infrastructure Law includes a historic \$65 billion investment to expand affordable and reliable high-speed Internet access in communities across the U.S. NTIA recently launched a series of new high-speed Internet grant programs funded by the law that will build high-speed Internet infrastructure across the country, create more low-cost high-speed Internet service options, and address the digital equity and inclusion needs in our communities.

For more information on the Biden-Harris Administration's high-speed Internet service programs, please visit [InternetForAll.gov](https://InternetForAll.gov).

### **About the National Telecommunications and Information Administration**

The National Telecommunications and Information Administration (NTIA), part of the U.S. Department of Commerce, is the Executive Branch agency that advises the President on telecommunications and information policy issues. NTIA's programs and policymaking focus largely on expanding broadband Internet access and adoption in America, expanding the use of spectrum by all users, advancing public safety communications, and ensuring that the Internet remains an engine for innovation and economic growth.
