

**For discussion at May 26, 2016 NDCAP Meeting**

**Draft - Addition to NDCAP Charter regarding public access to NDCAP meetings**

“In order to serve as a conduit for public information and education on and to encourage community involvement in matters related to the decommissioning of the Vermont Yankee Nuclear Power Station, the Vermont Nuclear Decommissioning Citizens Advisory Panel (VNDCAP) will make reasonable accommodations to facilitate access to panel meetings by those who are unable to attend in person. This may include live streaming of meeting audio via the internet, access by conference phone, or similar means.”
